

To Whom it may concern;

I am writing to express my concern over the movement from FM translators to LPFM. I listen to KLove radio in my local area and it is a blessing to me and the community. The power of positive and uplifting music should never be underestimated. There are no other music stations of this type in my area. I do not believe that the community benefits that come from KLove would be present with LPFM.

Thank you for your time. Jennifer Radice
